Subject: Draft agenda for Nov WQS/M&A meeting
Draft MEETING AGENDA 2013(V2).docx

Hello all

Please see the draft agenda attached for your review. Since our conference call last week, I was reminded that it was suggested at our meeting last year to focus the 2013 meeting on biocriteria/bioassessment. Therefore, I am proposing we use Wednesday morning for brief presentations from each state and tribe (likely only Ft. Peck) on the status of their biomonitoring program and the associated WQS. I still need to contact potential presenters in the agenda to see if they would be willing to prepare something for the meeting. I am still looking for volunteers for several sessions.

M&A folks – the breakout session topics are placeholders for now – please revise as needed.
Tom – did you receive any suggestions from the EPA M&A team?

I'd like to send this out to the larger group for feedback on Monday or Tuesday next week so please send any comments by Monday afternoon. Thanks!
